DETAILED ACTION

Examiner took notice of remarks made on 10/26/2004 and found it is persuasive.

Claims 1-19 are now pending in this application.

EXAMINER'S AMENDMENT

Cancel claims 20-30 due to non-elected group. Applicants have withdrawn claims 20-30 in the Response made on 10/26/04.

Reason for allowance

Claims 1-19 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed limitations having a method of forming one-time programmable read-only memory to improve the uniformity of PN junction and reduce the leakage current, the method comprising the steps of forming a stacked structure consisting of a first doped layer, a dielectric layer, and a nucleation layer (or a second doped layer), forming an insulating layer having an opening therein, then forming a second doped layer (or a nucleation layer) and converting the second doped layer (or a nucleation layer) into a single-crystal silicon layer by annealing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
